1

Basically a synopsis required your own planning of research. It does not require any cut and past. I want introduction of the topic in your own words. A critical literature review is required. Methodology requires proper studies of the concept and a reasonable consultation with your supervisor. It requires a lot of time. I am against the method of cut and paste. So everyone concentrate on the points which I am advising. Please contact with your teacher when they say OK then contact with me. Thanks.

15:48

All the teachers are requested to concentrate on synopsis of M. Tech students and when it is in proper shape then consult with me for finalization. Thanks.

15:51
