FACILITIES FOR DIVYANGJAN

APS University is working hard to improve the accessibility of its campus for the handicapped. Our plan includes wheelchair ramps, special lifts, tactile paths, accessible restrooms, and other facilities to make the campus more accommodating for those with disabilities. The university already has reserved quota for the handicapped in admissions and job openings.

Our vision is to make life easier for handicapped people. This includes ramps, wider doorways, accessible restrooms, and designated parking. We are working towards offering braille books, audio books, and other technological solutions.
